RE: Entry in the 2022 Wisconsin Corn Evaluation Program

Dear Friends,

Enclosed are instructions and entry forms for the 2022 Wisconsin Corn Evaluation Program. We are offering the traditional Public Grain and Silage Hybrid Trial as well as Private Grain, Private Silage and Organic trials.

Please note the following while completing your entry:

- **Indicate Bioengineered Technology.** For each hybrid entered indicate the corresponding technology. Please use the spreadsheet dropdown box or enter the technology in the space provided. *Corn varieties that have bioengineered technologies yet to be approved for major export markets, including Japan and the European Union (EU), are prohibited.*
- **Indicate Seed Treatment.** For each hybrid, please report the appropriate seed treatment and include an MDS (Material Safety Data Sheet) with all hybrid seed lots.
- **Seed Corn Bag Tag.** A seed corn bag tag must accompany all hybrid seed lots.
- **RIB entries.** Be sure your RIB seed sample contains both proportions of Bt and non-Bt seed.
- **Substitute Hybrid Form.** If a hybrid must be substituted, please submit a substitute hybrid form.
- Conventional herbicides will be applied to all trials. No glyphosate.
- Plots will be planted at 35,000 plants per acre using a precision planter and RTK guidance.

Important dates to remember:

March 11, 2022 - Application and Entry Fee are due.

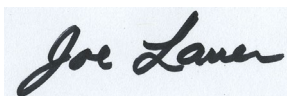

March 18, 2022 - Seed is due. Please provide 2 pounds or 3 MVK of seed for each "X" on your entry form.

April 15, 2022 - Last day to accept substitute or late seed. Please keep substitutions to a minimum.

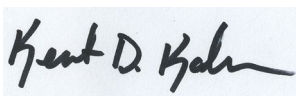

July 1, 2022 - Last day to change hybrid name.

Thank you for your cooperation and support of this program.

Sincerely,

Joe Lauer
Corn Agronomist

Kent Kohn
Program Manager

Thierno Diallo
Research Specialist

WISCONSIN CORN EVALUATION PROGRAM

-- Instructions for 2022--

ZONES: The state will be divided into geographic zones with three or four test locations per zone. Please see map in the 2021 Results Book indicating locations within each zone. Hybrids will be grown in "early" and "late" maturity trials in Southern, South Central, and North Central Zones, *based on the Relative Maturities provided by participating companies*. Experimental design will be randomized complete blocks, with three or more replicates at each location within each trial.

Grain Trials:	
Southern (S) Zone Arlington, Janesville, and Montfort	<i>Entries will be divided into two equal trials based on maturity.</i>
South Central (SC) Zone Fond du Lac, Galesville, and Hancock (irrigated)	<i>Entries will be divided into two equal trials based on maturity.</i>
North Central (NC) Zone Chippewa Falls (irrigated), Marshfield, Seymour, and Valders	<i>Entries will be divided into two equal trials based on maturity.</i>
Northern (N) Zone Coleman, Marshfield and Spooner. At Spooner, hybrids will be grown on sandy loam-dryland, sandy loam-irrigated, and silt loam-dryland sites.	<i>There will be no differentiation between Early and Late maturity trials.</i>
Silage Trials:	
Southern (S) Zone Arlington and Montfort	<i>Entries will be divided into two equal trials based on maturity.</i>
South Central (SC) Zone Fond du Lac and Galesville	<i>Entries will be divided into two equal trials based on maturity.</i>
North Central (NC) Zone Chippewa Falls (irrigated), Marshfield, and Valders	<i>Entries will be divided into two equal trials based on maturity.</i>
Northern (N) Zone Coleman, Marshfield and Spooner. At Spooner, hybrids will be grown on sandy loam irrigated and silt loam-dryland sites.	<i>There will be no differentiation between Early and Late maturity trials.</i>
Organic and Refuge Trials:	
Southern (S) Zone - Arlington, Janesville, and Montfort South Central (SC) Zone - Fond du Lac, Galesville, and Hancock North Central (NC) Zone - Chippewa Falls (irrigated), Marshfield, Seymour, and Valders	<i>There will be no differentiation between Early and Late maturity trials.</i>

TECHNOLOGY: For bioengineered hybrids, please report the appropriate technology.

SEED TREATMENT: For each hybrid, please report the appropriate seed treatment and include an MDS (Material Safety Data Sheet) with all hybrid seed lots.

PLANT POPULATIONS: Plots will be planted at 35,000 plants per acre using a precision planter and RTK guidance.

HYBRID NAME CHANGES: Hybrid name changes will not be allowed after **July 1, 2022**.

ELIGIBILITY OF ENTRANTS: Producers and/or distributors of corn seed and the University of Wisconsin, Department of Agronomy are eligible to make entries in the 2022 Wisconsin Corn Evaluation Program.

DATE OF ENTRY: The application *and* entry fee must be in the possession of the Wisconsin Corn Evaluation Program, University of Wisconsin - Dept. of Agronomy, 1575 Linden Dr., Madison, Wisconsin 53706, **by March 11, 2022**. No entry fees will be refunded after **March 18, 2022**. *The Evaluation Committee reserves the right to reject any applications received after that date.*

ENTRY FEE: The fee for the Wisconsin Corn Evaluation Program (Grain, Organic, and Refuge) is **\$375** per entry *per zone*. The fee for Silage Trials is **\$395** per entry *per zone and the fee for Private Corn Trials is \$425 per entry per zone*.

SEED FOR TESTING: Deliver or send by mail or express prepaid, *2 pounds or 3 MVK of seed* for each "X" on your entry form, to the Wisconsin Corn Evaluation Program, c/o Kent Kohn, Arlington Ag Research Station, N695 Hopkins Road, Arlington, Wisconsin, 53911, **by March 16, 2022**. Please attach a regular seed corn bag tag and MSDS to the sample as if it were entering the commercial trade.

RIGHT TO REJECT: The right is reserved to reject any entry if: 1) the information requested on the application is incomplete, 2) there is a misrepresentation, 3) the entry fee is not paid, 4) samples are less than 2 pounds for each "X", or 5) *the seed has not been received by March 28, 2019*. 6) the bioengineered technology has yet to be approved for export.

PUBLICATION OF RESULTS: Grain yield, moisture, test weight, lodging, whole plant yield, ADF, NDF, CP, IVTD, Starch, NDFD and other data will be published and made available to the public in December. The results will be available at our website <http://corn.agronomy.wisc.edu/HT>.

APPLICATION FOR ENTRY - 2022 WISCONSIN PRIVATE CORN TRIALS

Grain and Silage

The results of these trials will not be published in the Hybrid Trial Book but will be available in our Annual Report. If you are concerned about confidentiality, you may code your hybrids. All check hybrids are the responsibility of the entrant.

Complete the hybrid information section and mark the zone in which each variety is to be tested.

S = Southern Zone (Arlington and Montfort), SC = South Central Zone (Fond du Lac and Galesville), NC = North Central Zone (Chippewa Falls, Marshfield and Valders), N = Northern Zone (Coleman, Marshfield and Spooner Irrigated).
